

BAE14 CRUD Project

By Kyrone James

Intro/Concept

Approach:

Viewing samples,

Watching DOM manipulation tutorials

Planning

Sprint Plan/Retrospective / Review

Go to Jira:

Improvements:

CSS still needs to be done

JS can be improved

What got left behind:

Tech

Spring Boot , Eclipse, postman, SQL workbench, Git/hub – already had familiarity

Axios - new

CI

Switch over to Git Hub

Testing

Go to Spring boot

Conclusion

Need to work more on java script and CSS

Better time management
